MEETING SUMMARY

Chrome books recently donated to the school were asked to have stickers removed because of advertising policy, as per school board. The SAC believes that recognition should be given to company that has kindly donated the Chrome books to the school. We are working on a letter to the school board to discuss this further.

There has been some vandalism at the school. We are requesting an increase in police presence to help the situation and prevent further damage. We are not trying to deter community from using the space, we are just hoping this will help them use it with a little more respect.

It has also been noticed there has been an increase in parents parking in the parking lot during dismissal. This is causing some issues with bussing. There will be a notice going out in the newsletter.

We have \$5000.00 designated to the SAC that will need to be used before the end of the year. SAC agreed this could be used for staffing to help with literacy learning within the school. It was also discussed, that should there be any monies remaining at the end of the school year, it would be donated to the PTA, to help with their ambitious Playground project.
